

Subject: Opposed to passing SB184 and HB5262

Date: 03/04/22

I am opposed to passing SB184 and HB5262. There is no longer a warranted reason to allow for universal no-excuse absentee mail-in ballot. The Connecticut Constitution is clear when absentee ballots are warranted, and we do not need laws amending the election process. Currently, CT has one party dominance in every governing body. Any attempt by the controlling party to create new election laws to loosen the security of elections would reduce citizen confidence in the integrity of our elections. This would also give the appearance that the controlling party is further attempting to tilt the electoral process into their own favor. Do not pass SB184 or HB5262
